Sponsoring Church - Westwood Baptist Church, Odessa, TX

Co-Sponsoring Church - Pavillard Baptist Church, Amarillo, TX

November Report

In the midst of a building project, it is sometimes hard to keep up with whether you are coming or going. Needless to say, things have been very busy here. Our building remodel efforts on the building continue to go well. The sheetrock work is done, and the taping and finishing of the sheetrock is underway. That should be complete in a week, and then we will begin painting. Even though we are making progress, there is still much to do.

The people are getting very excited about moving in to our new home, but at this point it is hard to say when exactly that will be. We are working very hard to try and beat winter on our outside projects, hopefully we will be able to do this.

We now have a very nice sign on location, and ready to be erected. We want to thank our sponsoring church Westwood BC for their generous donation to cover the expense of the sign. We also want to thank all of our supporting churches for their continued generosity toward the work.

Our needs are simple. We need you prayers, and continued support toward our building efforts. We still have a large expense to complete which is our parking lot. The parking lot alone will cost almost \$10,000.

New Address

Please note our new address. Any church that is sending mail directly to us may now begin sending mail to [1115 N. 1700 Rd, Lawrence, KS 66049.](#)

Also, this past month I was blessed to be able to come home and hold revival with Emmanuel MBC in Bogalusa, LA. It was truly a blessing to see family again, but more so to be blessed with the opportunity to preach.

Our averages for the month held close to normal with 31 in SS, and 36 in Worship. Our offerings were up due to the excitement of the building. Please continue to pray for us. Any additional help with labor would also be greatly appreciated.
